

The Dhole Conservation Fund (DCF) provides grants to projects that are working towards ensuring a sustainable future for wild dholes. Projects can be field based, captive based, education and outreach based. DCF is interested in hearing about all the different project out there trying to help or understand dholes. DCF can contribute to most projects and our guidelines are designed to allow us to work with and within most existing contracts. We can contribute either financially, with equipment or in kind, as well as resource based assistance. Please use submit the application below and a DCF member will get in contact with you shortly. Currently as of July 2017 we do have funds available for small grant projects. We are also accepting larger request for the 2018 season which will open on March 1, 2018.

Name: _____

Origination or Institution you are working with: _____

Email: _____

Phone number (with county code): _____

Address: _____
